

MEDIA ALERT

The New EPOS Developer Portal – a Simple, Scalable and Secure Way to Access All Digital Solutions Assets

Copenhagen, Denmark – November 3, 2021: EPOS, the premium audio solutions brand, is excited to reveal the new EPOS Developer Portal. This digital platform provides access to EPOS APIs and SDKs, enabling partners and customer development teams to integrate and deploy EPOS devices into their voice and video solutions to ensure a superior user experience and achieve higher productivity.

Designed for easy accessibility to EPOS APIs and SDKs

The EPOS Developer Portal was created to facilitate access to EPOS digital solutions assets in one centralized platform. Technical partners can access here a variety of APIs and SDKs and work into their own solutions to take advantage of device management capabilities, interoperability or call control. Designed to help users stay up to date with the latest software releases for our digital solutions assets, the Developer Portal features a built-in lightweight support system where you can get all your technical questions answered.

“We are thrilled to introduce the EPOS Developer Portal, a one-stop platform that supports longtime collaboration with our partners. This new program will improve the overall experience and enable organizations to work and communicate in a more productive way using EPOS audio and video solutions”, Theis Mørk, VP Product Management.

About EPOS

Established upon the former successful joint venture between audio specialist Sennheiser and the world-leading hearing technology group Demant, EPOS designs, manufactures and sells pioneering high-end audio and video solutions for business professionals and serious gamers.

Crafted with advanced engineering and pioneering technologies, EPOS offers uncompromised audio and video connectivity that enable business professionals to better communicate and collaborate – anytime, anywhere and on any device. EPOS audio is reliable, easy-to-use and designed for ultimate comfort.

Owned by the Demant Group and with headquarters in Copenhagen, Denmark, EPOS builds on more than 115 years’ audio expertise and operates in a global market with offices and partners in more than 60 countries.

Alongside own-branded premium audio and video solutions, EPOS sells co-branded EPOS | SENNHEISER products under a trade license agreement with Sennheiser.
