MEDIA ALERT

EPOS' Expanding Range of Avaya Compliant Headsets Help Customers Flexibly and Reliably Communicate Anywhere

Copenhagen, Denmark – December 9, 2021 – EPOS today announced that headsets from the ADAPT 100, ADAPT 200, IMPACT 100, IMPACT 600, IMPACT SD, IMPACT DW and IMPACT MB Pro Series are now compliant with key Avaya OneCloud™ solutions, delivering premium audio performance to help customers better engage with others and be more productive. [Avaya](#) is a global leader in solutions that enhance and simplify communications and collaboration.

EPOS' headsets help customers stay focused and work flexibly in or out of the office, delivering exceptional sound and speech intelligibility without distracting background noise. The ADAPT 100, IMPACT 100, IMPACT 600, IMPACT SD, IMPACT DW and IMPACT MB Pro Series headsets are now compliance-tested by Avaya for compatibility with Avaya Workplace Client for Windows and Avaya one-X® Agent. The ADAPT 200, IMPACT SD, IMPACT DW, and IMPACT MB Pro Series headsets are also now compliance-tested by Avaya for compatibility with Avaya J100 Series IP Phones.

"Technology partners like EPOS help our customers to communicate easily and reliably in an ever-changing business environment. We look forward to working with EPOS so we may continue to deliver exceptional experiences as we move into the future," said Susy Liem, Avaya Vice President of Product Management.

EPOS is a Technology Partner in the Avaya DevConnect program, part of the Avaya Experience Builders™ network of Avaya experts, partners, developers, and customers. This unique global collaborative is exceptionally positioned to deliver the next-gen customer and employee experiences businesses need through the Avaya OneCloud AI-Powered Experience platform. Partners in the DevConnect program develop, market, and sell innovative third-party products that interoperate with Avaya technology and extend the value of a company's investment in its network.

As a Technology Partner, EPOS can submit products to Avaya for compliance testing, where a team of DevConnect engineers develops a comprehensive test plan for each application to verify its Avaya compatibility. This enables customers to confidently add best-in-class capabilities to their network without having to replace their existing infrastructure—helping speed deployment of new applications and reduce both network complexity and implementation costs.
