## PRESS RELEASE

### EPOS Introduces the IMPACT D Series, Your Journey to Wireless Freedom

**Copenhagen, Denmark – August 31, 2021:** EPOS, the premium enterprise and gaming audio and video brand, is excited to announce the launch of the IMPACT D Series – a lightweight range of comfortable headsets designed to provide peerless audio performance and powerful wireless reach. This headset Series merges the existing IMPACT D 10 Series with the 2 new IMPACT D 30 variants and the 2 new IMPACT D 10 II variants. Optimized for UC, the IMPACT D Series has a streamlined functional design suitable for all day use.

### Perfect call clarity for 100% focus

Even in modern times, with customers increasingly embracing many different digital interactions, automation, and self-service, the human voice remains the most trusted form of communication. The IMPACT D Series has been developed to meet the requirements of professionals in energetic office and contact center environments where clear audio, comfort, and ease of mobility are an absolute must.

Making full use of EPOS's unique in-house technologies, such as EPOS Voice<sup>™</sup> technology, which focuses on the human voice to produce a rich, natural sound experience, the IMPACT D Series helps business professionals communicate effectively throughout their working day by eliminating the frustrations and distractions caused by bad audio.

Our cutting-edge solution augments the conversation experience, reducing the prominence of unnecessary ambient noise and allowing for 100% customer focus, whatever the situation. EDS SENNHEISER

"The IMPACT D Series uses cutting edge technology to give professionals in energetic work environments true wireless freedom. With enhanced security features, powerful wireless reach, superior audio and natural listening experience, the IMPACT D Series is the premier solution when talk matters."

# PRESS RELEASE

### A secure solution

In today's digital world, companies are more exposed than ever to hostile online threats. Wireless networks offer great potential for exploitation, so security is paramount when it comes to choosing a wireless headset solution. The IMPACT D Series keeps data safe and secure with protected pairing – meaning company security is never an issue.

### Streamlined functional design

Keep desks tidy with a streamlined design ideal for hotdesking when agents need plug and play functionality at every workstation. With one base station that serves both monaural and binaural wearing styles, a superior docking experience and single connectivity to PC or phone, the IMPACT D Series makes high quality wireless DECT headsets accessible to all.

#### Wireless freedom

No one wants to be chained to their desk, surrounded by tangled cables. The IMPACT D Series has a powerful wireless range so that users have the freedom to walk and talk and be mobile without compromising on perfect call clarity.

With simple, single connectivity to PC, hybrid users can connect their headset wirelessly and enjoy the mobility of a powerful wireless DECT headset throughout their working day.

### About EPOS

Established upon the former successful joint venture between audio specialist Sennheiser and the world-leading hearing technology group Demant, EPOS designs, manufactures and sells pioneering high-end audio and video solutions for business professionals and serious gamers.

Crafted with advanced engineering and pioneering technologies, EPOS offers uncompromised audio and video connectivity that enable business professionals to better communicate and collaborate – anytime, anywhere and on any device. EPOS audio is reliable, easy-to-use and designed for ultimate comfort.

Owned by the Demant Group and with headquarters in Copenhagen, Denmark, EPOS builds on more than 115 years' audio expertise and operates in a global market with offices and partners in more than 60 countries.

Alongside own-branded premium audio and video solutions, EPOS sells co-branded EPOS I SENNHEISER products under a trade license agreement with Sennheiser.
