

PRESS RELEASE

EPOS Introduces the ADAPT 200 Series, a Flexible Solution for the Hybrid Workforce

Copenhagen, Denmark – May 11, 2021: EPOS, the premium enterprise and gaming audio brand, is excited to announce the launch of the ADAPT 200 Series – a headset designed to accommodate the shifting requirements of working professionals. Certified for Microsoft Teams, the ADAPT 200 series provides versatility, flexibility and high audio quality.

A lightweight, versatile solution for flexible users

The ADAPT 200 Series has been developed to meet the requirements of a flexible workforce whose audio devices need to reflect and enhance their shifting work environments. Engineered with a focus on versatility, the 4 ADAPT 200 variants are ideal for use across office, home, remote and travel environments due to their lightweight and comfortable wearing style and personalized, adjustable fit. A noise cancelling microphone allows for enhanced concentration, removing unnecessary ambient noise and augmenting the conversation experience with EPOS Voice™ technology.

Optimized for collaboration

Ease of connectivity is critical in a hybrid work environment, which is why we have developed a solution that is optimized for collaboration across multiple devices. With Certified for Microsoft Teams options to connect with either a USB A or USB C dongle. This provides an empowering wireless experience with colleagues and business partners, regardless of the location.

“The shifting needs of our customers are at the heart of our team’s design process, and the hybrid work model certainly shows no sign of waning. This calls for lightweight, flexible solutions that can seamlessly integrate into working life, and enhance all aspects of collaboration, regardless of the setting. We’re excited to launch the new generation of the ADAPT Series – the need for high quality, versatile audio devices has never been so great.”

Theis Moerk Vice President, Product Management at EPOS

PRESS RELEASE

Empowering professionals on the go

Comfort and convenience have been prioritized in the design of the ADAPT 200 Series, to meet the demands of professionals on-the-go. Soft, thick ear pads ensure all day comfort and passive noise damping, while a discreet foldable boom arm allows for a seamless transition between calls and other tasks, at work or on the commute. The ADAPT 200 series is an affordable, lightweight solution that provides freedom to users embracing new work environments, promoting increased productivity through uncompromising audio, and increased flexibility through the wireless features.

“Today, Microsoft Teams is a key tool for helping teams connect and collaborate in the hybrid workplace. Teams is also a platform, and our partners delivering devices for Teams enable all the elements to come together to increase hybrid workplace productivity. High quality audio is one of those elements, and that’s why we are pleased to certify the EPOS ADAPT 200 for Teams.”

Albert Kooima

Senior Director Microsoft Teams Devices
Partner Engineering and Certification at Microsoft

About EPOS

EPOS is an audio and video solution company developing and selling devices for business professionals and the gaming community. Based on leading and advanced technologies, the Danish founded company delivers high-end audio and video solutions with design, technology and performance as paramount parameters.

The establishment of EPOS is based on the decision to let the business segments of the joint venture – known as Sennheiser Communications – between Sennheiser Electronic GmbH & Co. KG and Demant A/S evolve in different set-ups. Alongside the introduction of a new own-branded portfolio, EPOS continues to sell the current Sennheiser Communications portfolio co-branded as EPOS | SENNHEISER.

EPOS is part of the Demant Group – a world-leading audio and hearing technology group. As such, it builds on more than 115 years of experience of working with innovation and sound. With headquarters in Copenhagen, Denmark, EPOS operates in a global market with offices and partners in more than 30 countries.
