

Flawless Hybrid Meetings with EPOS and Airtame

EPOS partners with Airtame to provide users with simple, easy, and flawless hybrid meetings.

Empower your hybrid workforce with Airtame and EPOS. Seamlessly integrating with EPOS audio and video devices, Airtame lets you transform your meeting rooms into efficient spaces, where users can join meetings with just one click.

Airtame and EPOS ensure flawless communication. The Airtame Hub ensures high-quality and low-latency meetings, while EPOS delivers crystal-clear audio and superb video to help everyone be seen and heard with absolute clarity.

With Airtame, you can collaborate through Microsoft Teams and Zoom, making it a smart choice that meets all your conferencing needs. Enjoy a consistent and streamlined user experience across both platforms.

Make every video meeting a delight with EPOS and Airtame.

Why EPOS

- High-end audio and video solutions that help you improve focus and perform better during hybrid meetings.
- EPOS devices are compatible with leading UC providers, delivering a flexible hybrid meeting experience. Use the platform of your choice.
- Hear and be heard using EPOS' award-winning speakerphones that are intuitive, flexible, and simple to use.
- EPOS Meeting Room Solutions are easy to install, helping you enhance hybrid meetings and empower your hybrid workforce.
- Flexible deployment with EPOS and Airtame lets you speed up the implementation of meeting room solutions in your organization.

Why Airtame

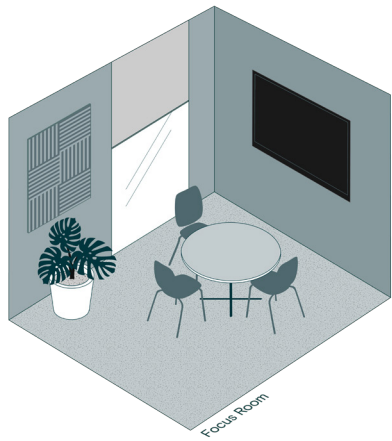

- Airtame lets you enjoy simple, wireless, and flawless meetings with just one click.
- Run high-performance conference calls on the Airtame Hub instead of your laptop, ensuring a high-quality, low-latency video meeting.
- Join both Microsoft Teams and Zoom meetings through the Airtame license without any additional expenses, making it a smart choice that meets all your conferencing needs. Enjoy a consistent and streamlined user experience across both platforms.
- No need for tablets. The Airtame app on your laptop works as the remote control, helping you save costs and making screen sharing easier for both in-room and remote users.
- Purpose-built for hybrid meetings, Airtame also comes with wireless screen sharing and digital signage.
- Easily manage your devices and displays through the centralized remote management tool Airtame Cloud.
