

GSP 350

Closed back surround headset

For gamers who demand high quality surround sound for their gaming, the GSP 350 closed acoustic headset delivers an immersive experience with an in-line 7.1 Dolby surround hardware dongle with companion app. High-end technology delivers a choice of stereo or 7.1 surround game audio for PC gamers. Rely on EPOS audio engineering to deliver the audio cues for instant game reaction, the bass extension for immersive sound and the acoustic clarity for crisp in-game chat.

The closed back design with XL ear cups provides passive noise attenuation and a microphone with a flexible lift-to-mute boom arm adjusts for best voice pick-up. Ergonomic fit is managed by a clever ball-joint hinge to angle the ear cups and a lightweight aviation-inspired split headband that creates less pressure on the head.
