

EPOS Connect for Mac

Optimize and personalize

Update with the latest firmware and personalize your EPOS audio device settings to ensure flawless operation and maximum productivity. Stay in control of your calls with a tool that keeps your devices working seamlessly with all leading softphones.

When work demands that you can perform in a range of different sound environments, the ability to personalize your audio devices is vital. EPOS Connect gives you easy access to customize call quality and adjust how you take calls depending on your situation.

Running EPOS Connect in the background of your Mac means you get the updates in real time as we design and engineer them. With a simple interface it's easy to get the most from your audio devices and improve your ability to achieve more wherever you work.
