EPOS Enterprise Solutions

# EXPAND Meeting Solutions

# Seamless Collaboration

As virtual communication becomes increasingly important for businesses around the world, the quality and reliability of conferencing devices is more essential than ever. We created the EXPAND Line of premium audio and video tools to specifically address the needs of decentralized teams, often working across locations and time zones.

Whether collaborating in small, medium or large meeting rooms, huddle spaces or for portable use on-the-go, every model in the EXPAND Line is designed and crafted for clear conversation, ease-of-use and perfect connectivity with all your devices.

Thanks to enhanced voice pickup and superior speaker sound, everyone on conference calls can participate and engage with the same confidence and clarity as if being there in person.

Furthermore, with EPOS video conferencing solutions you can now upgrade your business with video technology for today's smart office. By enhancing audio-visual communication between your colleagues – and customers – the EXPAND Line gives you the tools you need for seamless collaboration.

# Stay Focused with Audio Designed for the Brain

Digital communication tools are now a natural part of our daily lives. But our brains can struggle to process the sounds coming from headsets and speakers, as well as noises in the background. Such sound environments can result in cognitive overload, leading to concentration loss, tiredness, and stress.

At EPOS, we understand that we hear with our ears, but we listen with our brain. So to perform at our best, we need to help the brain adapt to sound environments in the hybrid workplace. A great audio experience only happens when technologies support the brain's natural listening process, helping it to perform as intended.

That is why we design audio and video solutions built on EPOS BrainAdapt™ technology – audio designed for your brain.

See more at [eposaudio.com/enterprise/brainadapt](https://eposaudio.com/enterprise/brainadapt)

## EPOS BrainAdapt™ in Meeting Room Solutions

## Building on Scientific Heritage

EPOS is part of the Demant Group, a world-leading hearing healthcare and technology group, and as such builds on more than 115 years of experience of working with innovation and sound.

Based on decades of psychoacoustic research through the Demant Group, EPOS has the data on how and when the brain performs best – and designs algorithms and acoustics that make it easier for the brain to balance and adapt to artificial sound environments.

Learn more at [eposaudio.com/epos-brainadapt](https://eposaudio.com/epos-brainadapt)

## Meeting Room Solutions Built on EPOS BrainAdapt™ Technology

Designed to enable seamless collaboration, EPOS Meeting Room Solutions built on EPOS BrainAdapt™ technology provide the best conditions for your brain for improved focus and better concentration in hybrid meetings. With unique algorithms and sophisticated acoustics, EPOS Meeting Room Solutions help reduce cognitive load on the brain, the key for increased meeting productivity for you and the people you collaborate with.

# EXPAND Speakerphones

## Superior Audio for the Hybrid Workplace

Connecting colleagues is a major challenge of today's hybrid workplace. With the EXPAND Line, we've raised the bar when it comes to teamwork. All our speakerphones help you seamlessly and instantly set up conference calls with superior audio, are easy to connect, intuitive to manage, and configure themselves automatically with all your devices. EPOS craftsmanship is known around the world for quality, reliability, and superior materials – built into sleek and compact designs that perfect the essentials, without any unnecessary parts or buttons. Designed for personal and shared use, at the

office, and on the go, the EXPAND Line gives you the freedom to turn any space into a hassle-free virtual meeting room, anywhere in the world. Intuitive and exceptionally easy to use, every solution is designed and crafted to perfection with best-in-class voice pickup, guaranteeing outstanding sound for you, your team, and your customers. The EXPAND Line also includes the first ever smart speaker from EPOS in partnership with Microsoft. EXPAND Capture 5 offers an even richer collaboration experience via Microsoft Teams Rooms and empowers all meeting participants wherever they work from.

# EXPAND Video Conferencing

## Video for Today's Smart Office

In today's working world video conferencing is becoming increasingly essential. High quality video conferencing solutions enrich the virtual meeting space replacing the need for expensive, unsustainable travel with an excellent alternative to face-to-face meetings. Seeing a clear image of your remote counterpart boosts the productivity of your meeting with all the nuances of expressions and body language.

Our EXPAND Line video conferencing solutions offer an unrivalled meeting experience with full HD video, exceptional voice pickup and noise cancellation – powered by EPOS AI™. These simple, all-in-one solutions work at the touch of a button, providing all you need in one device to make your meeting room a hub of productivity. With such reliability installed in your workplace you can feel as connected to your remote colleagues as if being in the meeting room together.

We call it – video collaboration reinvented.

# The Facts EXPAND

For the **69%\*** of office workers who use a headset or speakerphone for conference calls, seamless collaboration is vital. Which is exactly why we created the EXPAND Line.

We know that **59%\*** of workers use an audio solution every single day, so we created this line to be of the best quality and reliability out there.

Because **37%\*** of everyday collaborators spend more than half their time away from their desk, the EXPAND Line is designed and crafted for flexibility, ease-of-use and perfect connectivity with all devices.

 **7.1 million\*\*** meeting rooms will become video-enabled between 2018 - 2023.

 **378%\*\*** increase of video penetration in huddle rooms.

\* Insights report: "The way we work 2019"  
\*\* Frost & Sullivan: Global Huddle Room Video Conferencing Devices Market, K379-64

69%

Need seamless collaboration

59%

Use audio solution every day

37%

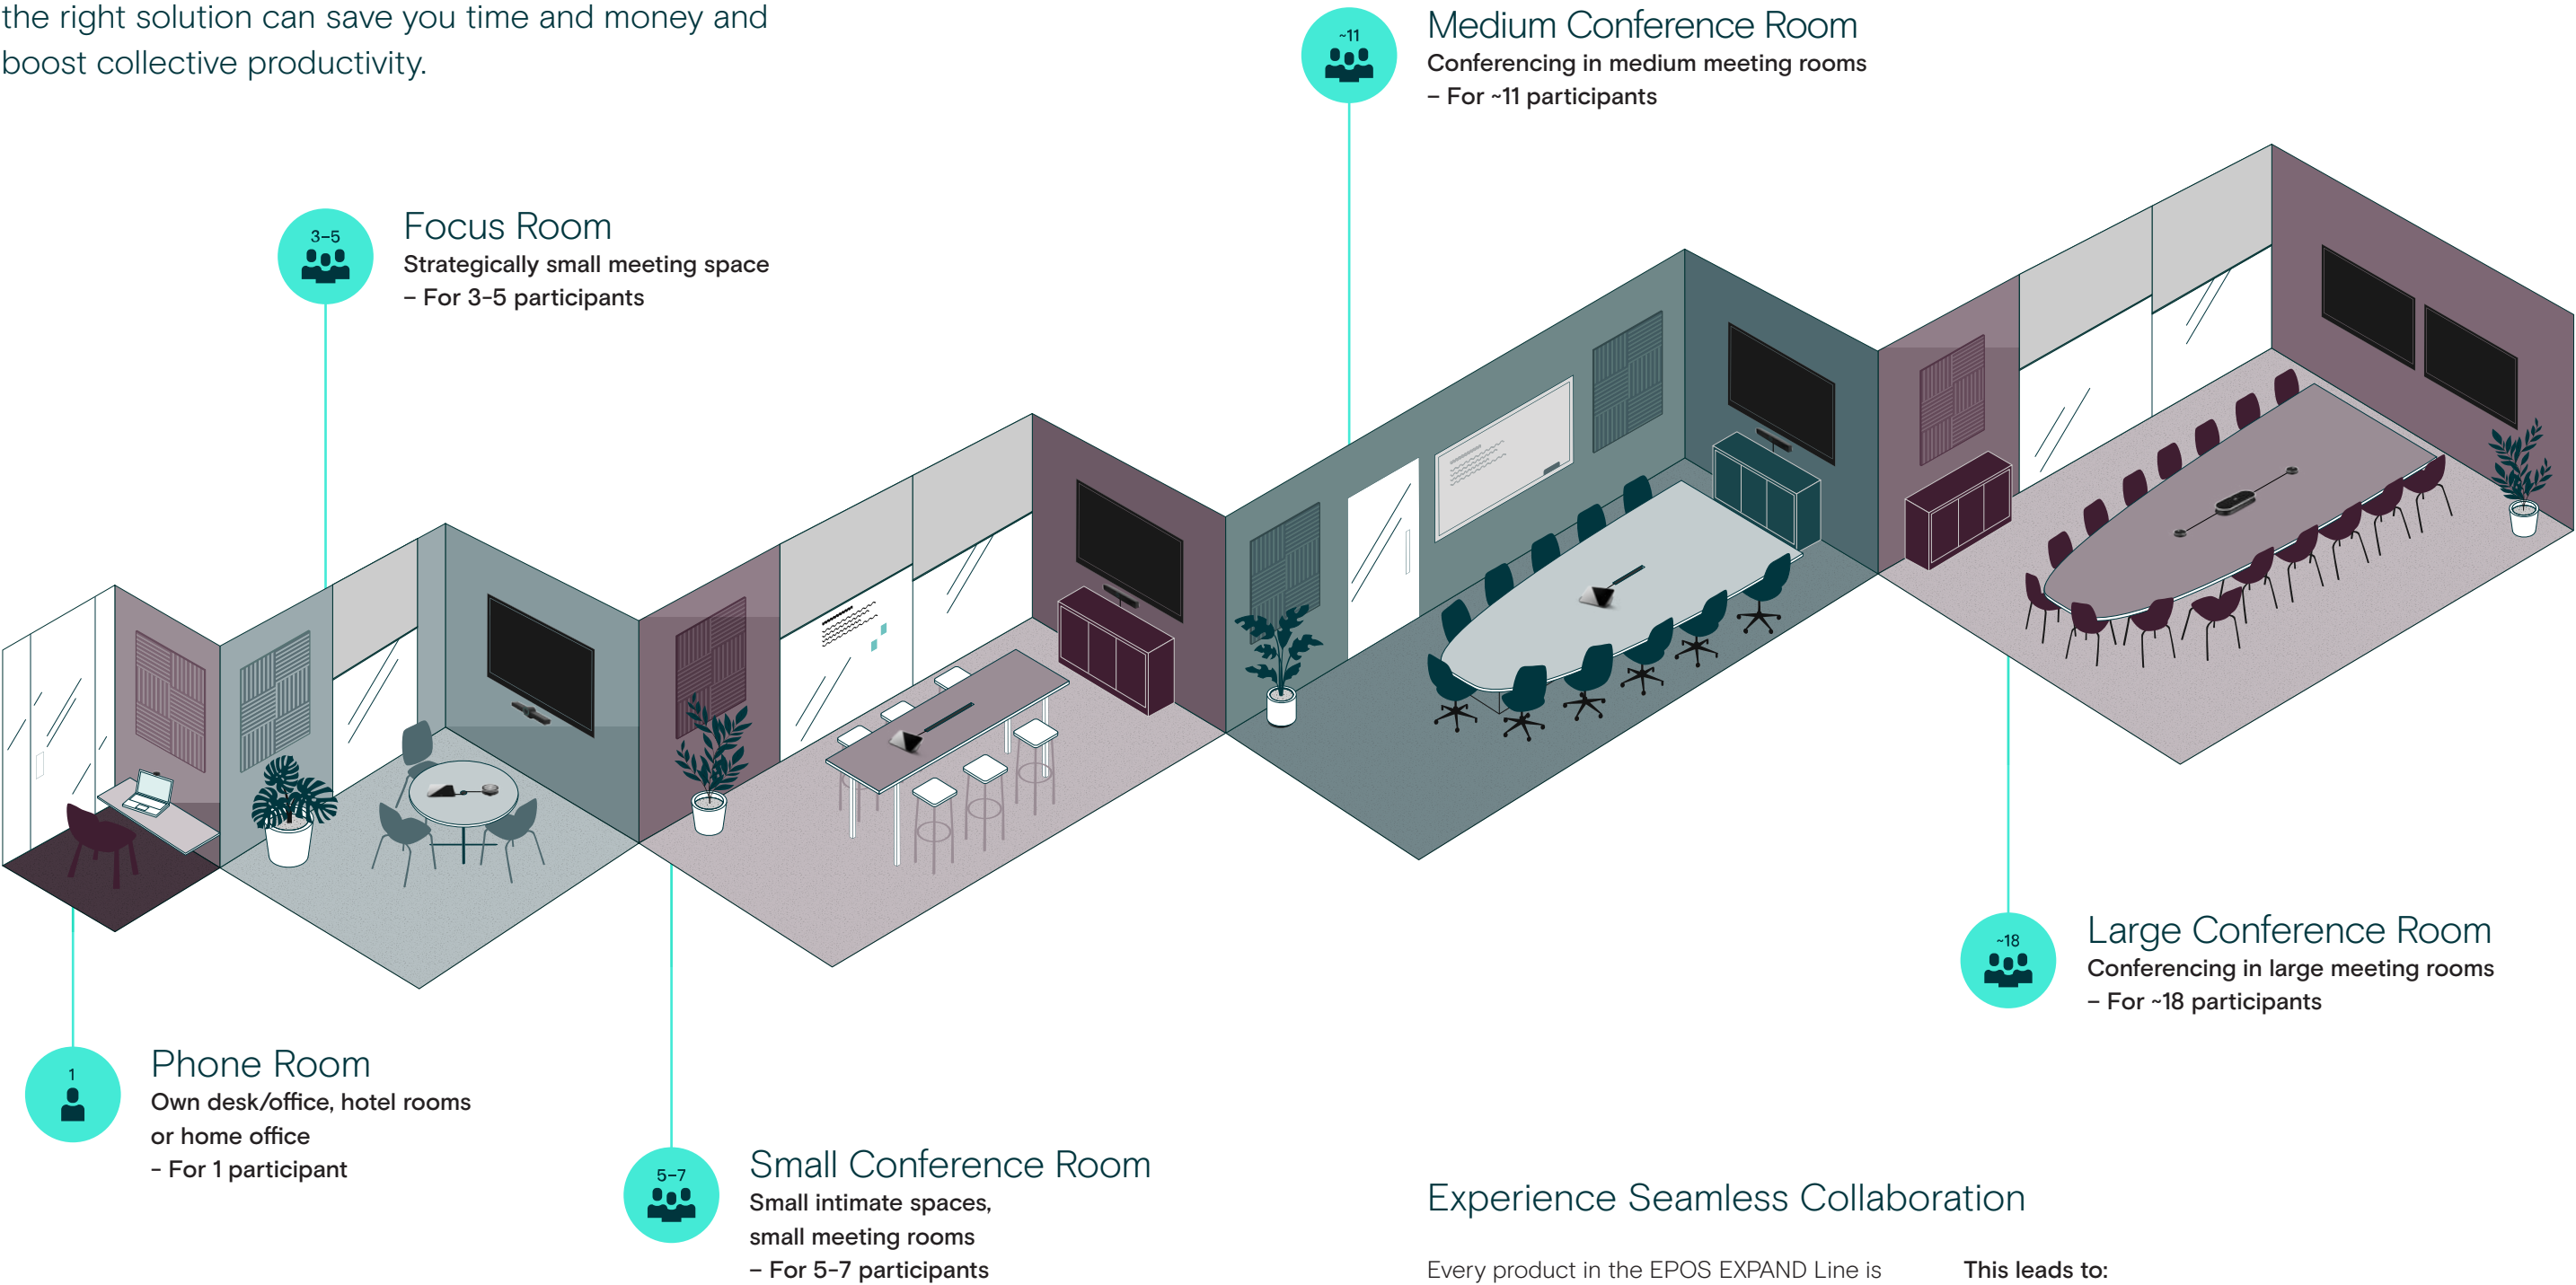

Of collaborators spend more than 4 hours away from desk

# Find Your Perfect Match

The following different meeting scenarios will help you identify your perfect conferencing solution. Choosing the right solution can save you time and money and boost collective productivity.

## Experience Seamless Collaboration

Every product in the EPOS EXPAND Line is designed for clear conversation, ease-of-use and connectivity with your devices.

With audio and video designed for the brain, EPOS enables both sides of the meeting to communicate and perform better.

- This leads to:**
- Increased focus
  - Reduced stress
  - Improved productivity

# EXPAND 80 Series

### Unite Your Team

Unite colleagues with a premium, scalable Bluetooth® speakerphone for up to 16 in-room participants. Thanks to six adaptive, beamforming microphones that isolate the human voice from room reverb and ambient noise, everyone in the room can be heard and colleagues out of the office are closer to the conversation.

Connect easily via Bluetooth®, USB-C or NFC and listen as the room fills up with rich, natural sound – perfect for dynamic conferences

and audio-visual presentations. Crafted with high-quality materials and fabric by Kvadrat, you get excellent resonance damping and a professional aesthetic for your workplace. For even larger meetings, expansion microphones allow you to adapt to the demands of your business. EXPAND 80 offers a space to meet and align in real time – enabling the confidence and clarity that boosts collective performance.

See more at [eposaudio.com/expand-80](https://eposaudio.com/expand-80)

## Key Benefits & Features

**Get your message through with EPOS Voice™**  
Six adaptive, beamforming microphones and DSP intelligently isolate voices from room reverb and ambient noise

**Rich, natural sound**  
Powerful ultra-low distortion speaker in a unique suspended speaker box fills the room with outstanding sound, enabling superior duplex performance that allows simultaneous speech

**Superior craftsmanship, statement Scandinavian design**  
Crafted with high-quality materials and sound-enhancing fabric by Kvadrat with a premium, minimalist aesthetic

**Expand your meetings**  
Attach up to two expansion microphones for larger meetings

**Set up your conference call in seconds**  
Enjoy multiple connectivity options, an intuitive user interface and one touch access to your preferred Voice Assistant or Microsoft Teams\*

## Additional Benefits & Features

**Protect your device**  
With Kensington lock support

**USB dongle parking place – easy to locate**  
BTD 800 USB dongle enables easy Bluetooth® connection to all devices

**Conferencing across devices**  
Merges PC/softphone and mobile calls into one conference

**Customized set-up**  
With detachable USB-C cable

**One touch access**  
To Voice Assistant or Microsoft Teams functionalities

**Intuitive sound design**  
With voice prompts created by Felt music

\* Applies to EXPAND 80T

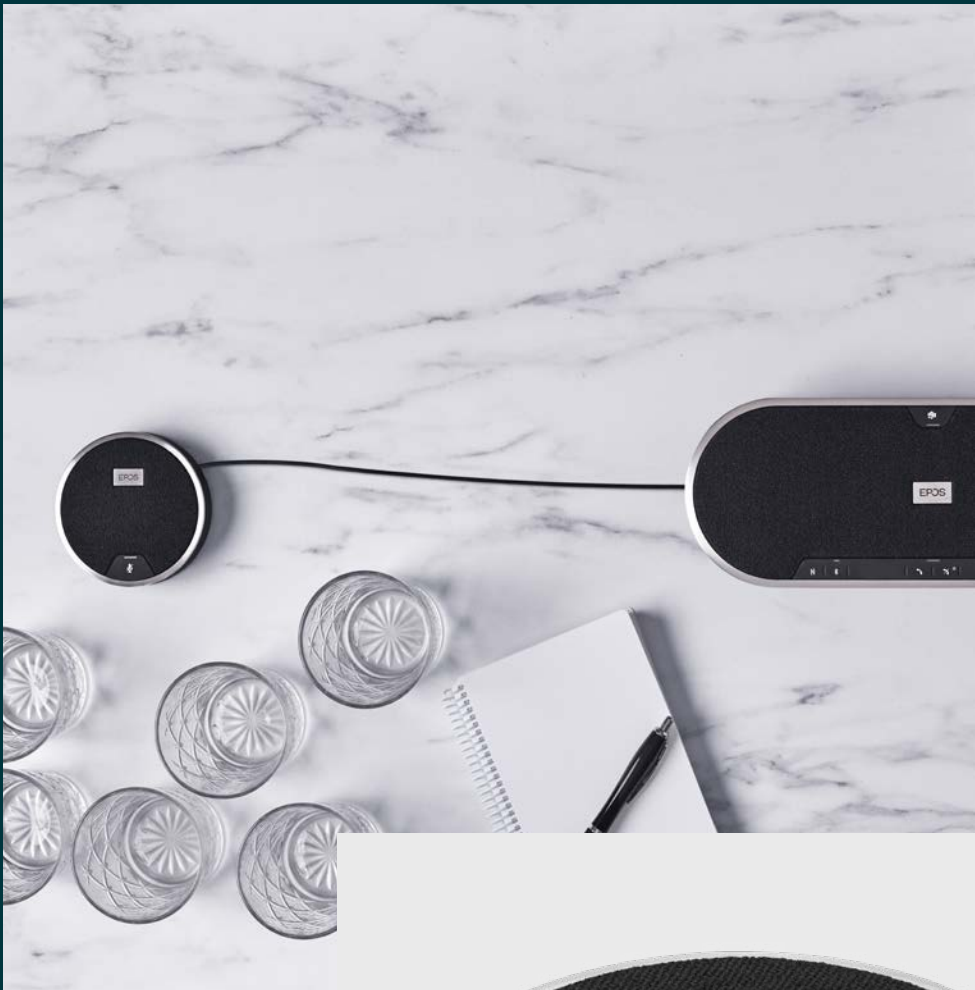

# EXPAND 80 Mic

## Expand Your Conferences

Boost the range of your EXPAND 80 speakerphone with expansion microphones that enable superb call clarity optimized for UC and certified for Microsoft Teams. Attach one or two microphones to fit the size of your meeting room and optimize your collaborations.

Ensure effective communication where all participants are close to noise-cancelling microphones that deliver excellent voice clarity. Maintain a professional, stylish conference table with smart cable management developed for optimal system function and ease of use. Crafted from the same high-quality materials as EXPAND 80, EXPAND 80 Mic creates a unified look and feel to your meeting room and elevates the interior design. Extend the range and possibilities of your EXPAND 80 conference solution and empower the performance of your entire team.

See more at [eposaudio.com/expand-80-mic](https://eposaudio.com/expand-80-mic)

## Key Benefits & Features

### Larger meetings UC optimized, and Microsoft Teams certified

For larger meetings attach up to two expansion microphones for a UC optimized and Microsoft Teams certified experience

### Ensure everyone is heard clearly

Each EXPAND 80 Mic contains 4 beamforming microphones, so every in-room participant is always close to a microphone

### Smart cable management for professional, stylish meetings

Customize cable length to your meeting room with smart cable management for an optimal system setup

### Plug and play conferencing

Simply plug into the EXPAND 80 and start your meeting. Once connected the entire set-up acts as one integrated system.

### Statement Scandinavian design

With sleek, minimalist aesthetic and high-quality materials that match EXPAND 80

# EXPAND 40 Series

## Instant conferencing enhanced

Sleek and portable wireless Bluetooth® speakerphone with exceptional audio performance. Join meetings instantly and experience crystal clear audio on both ends of the call. Three beamforming microphones isolate voices from room reverb and ambient noise for a rich and dynamic audio experience.

Easy to setup and use with multiple connection options (Bluetooth® or USC-C cable) for plug-and-play conferencing anywhere. Long battery life with up to 18 hours talk time. Supports both personal use and small to medium sized meeting rooms for up to 8 people.

See more at [eposaudio.com/expand-40](https://eposaudio.com/expand-40)

## Key Benefits & Features

### Reduce background noise

Three beamforming microphones isolate voices from room reverb and ambient noise

### Allows simultaneous speech

Industry-leading duplex performance enables several people to talk at once without being cut off

### EPOS Software Solutions

Tailor the device and maintain optimal performance by remotely updating to the latest firmware with EPOS Software Solutions

### Multiple connection options

Bluetooth® or USB-C cable for easy plug-and-play conferencing anywhere

### Comes in three versions

UC Optimized (including or excluding Bluetooth® USB dongle) or Microsoft Teams Certified with Bluetooth® USB dongle

## Additional Benefits & Features

### Long battery life

Up to 18 hours talk time

### Multipoint connectivity

Easily connect to two Bluetooth® devices simultaneously

### Robust push buttons and clear LED indicators

For intuitive call control and peace of mind as to call status (mute/on call etc.)

### Modern, portable design

Sleek, minimalistic round design engineered to fit every space and allow for optimal voice capture

### Easy implementation and operation

Simple for users to operate and easy for IT Managers to implement

### Slender pouch

Sleek and easy to transport, prevents wear and tear

### One touch access

To Voice Assistant or Microsoft Teams

### UC and Microsoft Teams ready

Optimized for UC and certified for Microsoft Teams\*

### Two-year warranty

Ensures your investment is protected

### Statement Scandinavian design

Minimalistic and constructed with premium materials. Matte black with aluminum finish

# EXPAND 30 Series

## Instant Conferencing Anywhere

The EXPAND 30 Series is a portable wireless speaker-phone for today's mobile workforce. Supporting both personal and small to medium sized conferencing for up to 8 people, it is possible to set up a conference call at a moment's notice in any location or use the device as part of a permanent conference room solution.

A choice of Bluetooth® or USB-C connectivity gives freedom and flexible connection options. Two long-range, noise and echo-cancelling microphones and an ultra-low distortion speaker with clear voice reproduction allow a natural, conversational flow even in challenging environments. For relaxing between calls, you can enjoy music performance with EPOS' renowned sound quality. With its premium materials, EXPAND 30 is a flexible conferencing tool for both in and out of the office.

See more at [eposaudio.com/expand-30](https://eposaudio.com/expand-30)

## Key Benefits & Features

### Experience plug-and-play conferencing anywhere

Portable with Bluetooth® or USB-C connection, multipoint connectivity – for up to three devices and one touch access to Voice Assistant/ Microsoft Teams\*

### Get exceptional audio performance for conference calls, music and multimedia

With EPOS Voice™ technology, ultra-low distortion speaker and two echo and noise-cancelling microphones with advanced algorithms

### Natural conversation experience

With industry-leading duplex performance that allows simultaneous speech

### Crafted for perfection

From premium-quality materials in a compact, lightweight design with convenient cable winding and safe dongle storage

### For personal or shared use

In huddle rooms for up to eight participants with a choice of automatic or manual reconnection for an optimal user experience

## Additional Benefits & Features

**Better quality conferencing** – Replaces PC/mobile speakers and microphone with an exceptional audio experience

**Conferencing across devices** – Merges PC/softphone and mobile calls into one conference

**Intuitive user interface** – With smart button grouping for ease of use

**Long talk time** – Of up to 18 hours

**Easy charging** – In just 3 hours 20 minutes via USB-C cable

**Convenience and protection on-the-move** – With a tailored carry pouch

**USB dongle parking place – easy to locate** – BT-D 800 USB dongle enables easy Bluetooth® connection to all devices

\* Available on EXPAND 30T

# EXPAND 20 Series

## Plug-and-play Conferencing Anywhere

Enjoy instant teamwork anywhere with a plug-and-play speakerphone that delivers premium audio, flawless design and easy connectivity. Simply connect to your mobile, laptop or tablet and have your meeting where it suits you.

Transform your home office, the back of your car or a hotel lobby into a meeting room with reliable conference call quality. There is simply no straining your voice with the EXPAND 20 – built on reliable audio technology that enables conversations as if in the same room.

See more at [eposaudio.com/expand-20](https://eposaudio.com/expand-20)

## Key Benefits & Features

**Experience plug-n-play conferencing anywhere**  
With compact, lightweight design, choice of USB or 3.5 mm jack and up to 20 hours of talk time

**Premium sound for better meetings**  
Renowned EPOS sound, duplex performance, and echo cancellation for natural conversations without straining your voice

**Personal or small group conference calls**  
Easy to take with you on-the-go for personal use or place in smaller meeting rooms

**High-quality Scandinavian design**  
That looks as good as it sounds, and is crafted to perfection with high-quality materials

**Easy to use and connect**  
With an intuitive user interface – simply connect to your PC/softphone, mobile phone or tablet and you are ready to talk

## Additional Benefits & Features

**Enjoy music wherever you are**  
Sound-enhancement profile for music and multimedia

**Conference across devices**  
Merges PC/softphone and mobile calls into one conference

**Intuitive user interface**  
Clear microphone mute button, call and volume control and easy cable management

**Convenience and protection**  
Easy to take with you on-the-go in a tailored carry pouch

**Better quality conferencing**  
Replaces PC/mobile speakers and microphone with an exceptional audio experience

**Outstanding communication**  
EPOS Voice™ and echo cancellation for natural communication

# EXPAND Capture 5

## Join Intelligent Meetings

An intelligent speaker for all Microsoft Teams Rooms (MTR) systems on Windows, with a 7-beamforming microphone array and Cortana voice assistant. Advanced voice recognition and transcription capabilities provide an inclusive meeting experience as if all in the room together.

Boost productivity and engagement with the task at hand for all meeting participants by ensuring remote attendees can hear everything as if physically in room. Meet the reality of the hybrid workplace, unite colleagues effectively, and take your virtual meetings to the next level.

See more at [eposaudio.com/expand-capture-5](https://eposaudio.com/expand-capture-5)

## Key Benefits & Features

### Enhance the Microsoft Teams Rooms (MTR) experience

Connects to any Microsoft Teams Rooms (MTR) system on Windows including HP, Dell, Lenovo, Logitech, and Crestron

### Advanced voice recognition

Identifies up to 10 distinct voices in the room and when enabled it transcribes a live feed of the meeting

### 7-microphone array

Provides superior audio for those listening, allowing for lifelike conversations

### Designed with Cortana in mind

Start meetings and add participants handsfree with Cortana voice assistant for enhanced productivity

### Enterprise-grade security and privacy

Full voice ID and data control, with voice signatures stored securely in Microsoft Office 365 cloud

## Additional Benefits & Features

### Evolving product

Get new features and improvements each time Microsoft rolls out updates in the category

### Clear LED indicators

For intuitive call control and peace of mind as to call status. LED displays clearly indicate when mute is engaged and when Cortana is active

### Statement Scandinavian design

Sleek, minimalistic round design made with premium materials, engineered to fit every space and allow for optimal voice capture

### Easy implementation and operation

Simple for users to operate and easy for IT Managers to implement

### Two-year warranty

Ensures your investment is protected

# EXPAND Vision 5

## Enhanced Meeting Experience

Take video conferencing to a new level with EXPAND Vision 5 for small and medium-sized meeting rooms. A powerful all-in-one video bar with razor-sharp video and outstanding audio performance thanks to two integrated speakers and four microphones.

Easy to set up with flexible mounting options, cable management and electro-mechanical pan/tilt for optimal installation. Leverage the built-in compute to run UC applications natively on the device for a seamless user experience.

See more at  
[eposaudio.com/expand-vision-5](https://eposaudio.com/expand-vision-5)

## Key Benefits & Features

### All-in-one product

Speakers, camera, microphones and compute are built in to make this an all-in-one device for small and medium-sized meeting rooms. No PC needed, with UC apps – such as Microsoft Teams – running natively on the device

### Superb audio performance

Powerful speakers carry every word clearly. Beamforming microphone array ensures crisp voice pickup and effective noise and echo cancellation

### Intelligent camera solution

Wide angle 4K camera with Sony sensor and electromechanical pan/tilt for optimal room

coverage. Intelligent picture framing dynamically adjusts to include all people in the room – powered by EPOS AI™

### Supports USB mode

Direct USB connection to PC or Mac® allows participants to bring their own device (BYOD) and run any UC solution from their laptop

### Certified solution

Certified for meeting room solutions including Microsoft Teams Rooms on Android™ (with EXPAND Control). Certification in process for Zoom Rooms

## Additional Benefits & Features

### Easy setup and installation

Quick and effortless configuration with flexible mounting options. Use the included wall-mount to hang it above or below the display or place it directly on a table

### Cable management

Integrated cable management for a tidy meeting room and a consistent set-up. Supports Kensington lock to ensure the video bar remains where it should

### Enterprise-grade security

Developed to meet the highest security standards

### Guaranteed privacy

Comes with dedicated hard-wired mute buttons for camera and microphones

### Content sharing

Share meeting content easily, through cable or wirelessly

### Stay in control

Control the meeting with the EXPAND Control tablet or via a smart display touch screen

### Centralized device management

Remote device administration and provisioning through EPOS Manager or UC provider solutions

### Warranty and support

A two-year warranty ensures your investment is protected. Plus, access to EPOS Support team for questions and assistance

# EXPAND Vision 3T

**Video Collaboration. Reinvented.**

All-in-one video solution for Microsoft Teams Rooms on Android™ for today's smart office. Join meetings with just one touch and enjoy a full Microsoft Teams experience. Enhance collaboration with full HD video, exceptional voice pickup and noise cancellation – powered by EPOS AI™.

Simple to set up, simple to install – and with the full feature set of Microsoft Teams. Enjoy a natural meeting experience and benefit from facial expressions, body language and voices with exceptional clarity that boost productivity.

Intelligent, sleek, and elegant, EXPAND Vision 3T comes with EXPAND 30T to create a high-quality video conferencing system with exceptional audio for up to eight in-room participants. Relish in peace of mind with automatic software updates and discover a purpose-made video conferencing solution that takes remote collaboration to the next level.

See more at [eposaudio.com/expand-vision-3t](https://eposaudio.com/expand-vision-3t)

## Key Benefits & Features

- Empower your meeting room**  
Comes with wide angle 4K camera with Sony® sensor, enhanced PTZ and superior audio from included EXPAND 30T
- Easy setup. Easy maintenance**  
Intelligent solution with automatic software updates, remote device management and provisioning. Simply plug and play
- One-touch join**  
All-in-one solution that's ready when you are. No PC needed. One touch, and you're in

- Like being there**  
**Enjoy a natural meeting experience with** intelligent picture framing, voice tracking and noise cancellation. Powered by EPOS AI™
- Microsoft Teams certified**  
Immerse yourself in Microsoft Teams with all the familiar features. Fully integrated

## Additional Benefits & Features

- Dual screen support**  
Display content on one screen, follow the conference on the other
- Place it where you please**  
On your table, on top of your display or wall-mounted
- Simple, remote set-up and updates**  
Remote device management and provisioning through Microsoft Teams admin center
- Guaranteed privacy**  
Comes with dedicated hard-wired mute buttons for audio and video
- Stay in control**  
With included remote control, or via touch screen on your smart display
- Flexible connectivity**  
Connect your headset or speakerphone via Bluetooth®
- Secure installation**  
Supports Kensington lock systems to ensure your video bar stays where you need it

# EXPAND Vision 1

## Conference Camera That Goes Where You Go

Complete your hybrid work setup with the EXPAND Vision 1. This compact, portable USB webcam delivers ultra-sharp video and exceptional voice pickup whether you work from home, on the go, or in an individual office space. Look and sound professional with EPOS Audio™ and a 4K camera optimized to produce the best picture in any light conditions.

Experience effortless video conferencing with two noise-cancelling microphones that ensure you are heard clearly. Adjust the picture quickly and easily in just a few clicks, with control over key settings like field of view, light and color.

See more at [eposaudio.com/expand-vision-1](https://eposaudio.com/expand-vision-1)

## Key Benefits & Features

### Ultra-high-definition video

Look professional on any video call with the ultra-sharp 4k camera that optimizes the picture based on light conditions

### Exceptional voice pickup

Be heard clearly thanks to two omni-directional, noise-cancelling microphones that pick-up the voice instead of background noise

### Instant picture control

Find the best picture setting with the smart floating menu that lets users adjust the field of view, light, and color

### Quick and easy setup

Set up anywhere in seconds. The integrated mounting clip is designed to fit any monitor and ensures the right position every time

### Certified solution

Certified for leading UC solutions including Microsoft Teams and Zoom, providing flawless user experience and trusted stamp of approval

## Additional Benefits & Features

### Guaranteed privacy

Slide the integrated shutter to secure privacy whenever it's needed

### Highly portable

Take it anywhere thanks to its compact design. The protective carry case also acts as a storage solution for all components

### Streamlined cable management

90-degree angled plug guides the USB-C cable down to avoid interference with other devices and to fit small working spaces

### Extra mounting options

If preferred, use the tripod mount with a standard third-party tripod to place the camera next to the screen

### Preset fields of view

Switch between four predefined field of view angles with a single click. Select from wide view, default, close-up, and macro

### Warranty and support

Two-year warranty ensures the investment is protected. Get access to EPOS Support team for questions and assistance

# EXPAND Control

### One-touch Control

The EXPAND Control tablet serves as either a meeting room controller or a scheduling panel, seamlessly integrating with leading UC solutions for any meeting room. Hassle-free installation and flexible tidy mounting options deliver an intuitive user experience that drives fast deployment and adoption.

Using the tablet as a meeting room controller, it easily pairs with EPOS EXPAND Vision video conferencing solutions, providing frictionless meetings. Features include one-touch join,

adjust call settings, or share content using the large anti-glare screen with its ergonomic viewing angle. Using it as a wall-mounted scheduling panel, users can view location and meeting details and reserve available meeting spaces on the spot. Multi-colored LED indicators on the side of the tablet show available meeting rooms..

See more at [eposaudio.com/expand-control](https://eposaudio.com/expand-control)

## Key Benefits & Features

### Enhanced meeting control

The tablet serves as either a meeting room touch controller or scheduling panel, which seamlessly integrates with leading UC solutions, providing a superior meeting experience

### Superior user-experience

Designed for an outstanding and ergonomic user experience, the tablet has an optimal viewing angle and a large 10.1" anti-glare treated touch screen

### Adapts to all meeting spaces

Suitable for any meeting room size or type, it also supports EPOS EXPAND Vision video conferencing solutions

### Flexible and tidy setup

Multiple mounting options, integrated cable retention and a single Power over Ethernet cable ensure an optimal and clean installation

### Certified solution

Certified for leading UC solutions including Microsoft Teams Rooms on Android™ it delivers a flawless user experience and comes with a trusted stamp of approval. Certification in process for Zoom Rooms

## Additional Benefits & Features

### Secure mounting options

Optional wall and table mounting alternatives allows for flexible placement, Kensington lock support for secure installation

### Centralized device management

Remote device administration through EPOS Manager or UC provider solutions

### Room bookings, simplified

Side LED-lights clearly indicate room availability – even from a distance

### Automatic power saving

Goes into power saving mode when the motion sensor detects no activity in the meeting room

### Warranty and support

A two-year warranty ensures your investment is protected. Access to the EPOS Support team for questions and assistance is included

# Technologies and Services

We've Got you Covered

# EPOS Technology

We divide our technologies into 3 subcategories: EPOS AI™, EPOS Sound™ and EPOS Voice™ to ensure a clear understanding of our technical spectrum at all ends. Our technologies span over the range of Artificial Intelligence to Sound Experience and Microphone Performance.

## EPOS AI™ – Creates an optimized audio experience

Through our commitment to exploring the Power of Audio we have developed an optimized audio experience that pushes your communication further and boosts your ability to succeed. With our user in mind, we implemented EPOS AI™ – a machine learning system embedded in EPOS audio devices that processes audio and takes decisions independently. By interacting with advanced beamforming and noise reduction algorithms, this system enables the device to automatically adapt to your speech while studying your sound environment. The technology within EPOS AI™ then successfully reduces the ambient sounds in your environment, thus, transmitting your speech loud and clear to your listener – where it matters most.

We aim to stay at the forefront of what is technically possible. With the ADAPT 660 we have launched the first edge AI based headset in the entire UC space, thus laying the groundwork to be pioneers within audio technology.

## EPOS Sound™ – Sound as if you were right there

EPOS Sound™ makes the most out of your premium audio device by delivering a natural listening experience. Through continuous monitoring of ambient sound and varying noise levels, our technology helps you concentrate while taking care of your hearing: creating an augmented and immersive audio experience that sounds as if you are speaking to someone face-to-face or are right there in the same environment. No matter where you are. What's more, you can listen to your teammates or keep an ear out for announcements without removing your headset. For more focus, block out background noise with ease and enjoy the benefits of EPOS Sound™ – while watching your performance and energy levels rise.

## EPOS Voice™ – Be understood in any environment

EPOS Voice™ improves your speech intelligibility and provides for a better conversation by creating an acoustic lens to focus on your speech. Through removing remaining noise disturbances, it ensures a more natural reproduction of the human voice. EPOS Voice™, furthermore, recognizes your environment in order to eliminate unpleasant background noise to clarify your sound picture. Making sure you can be heard no matter where you are – for the ultimate audio experience. With optimal control of noise levels, this technology allows for an effortless use of your digital voice assistants anytime, anywhere.

## Empower Your Business Anywhere

Save valuable time and make life simpler and smarter for your IT department, your business and your colleagues. By keeping you in touch with all your EPOS devices, EPOS Manager puts you in control of your company's UC environment in three key areas:

### Asset Management

*Get the overview*

See all your devices on the dashboard; from headsets to speakerphones and even non-EPOS devices. All users are registered in the system, which shows both active and inactive devices – who is using which device and how they are being used. Simply reallocate redundant resources to boost productivity. Reports on usage and firmware compliance keep you in complete control of company assets.

### Update Management

*Less downtime, more convenience*

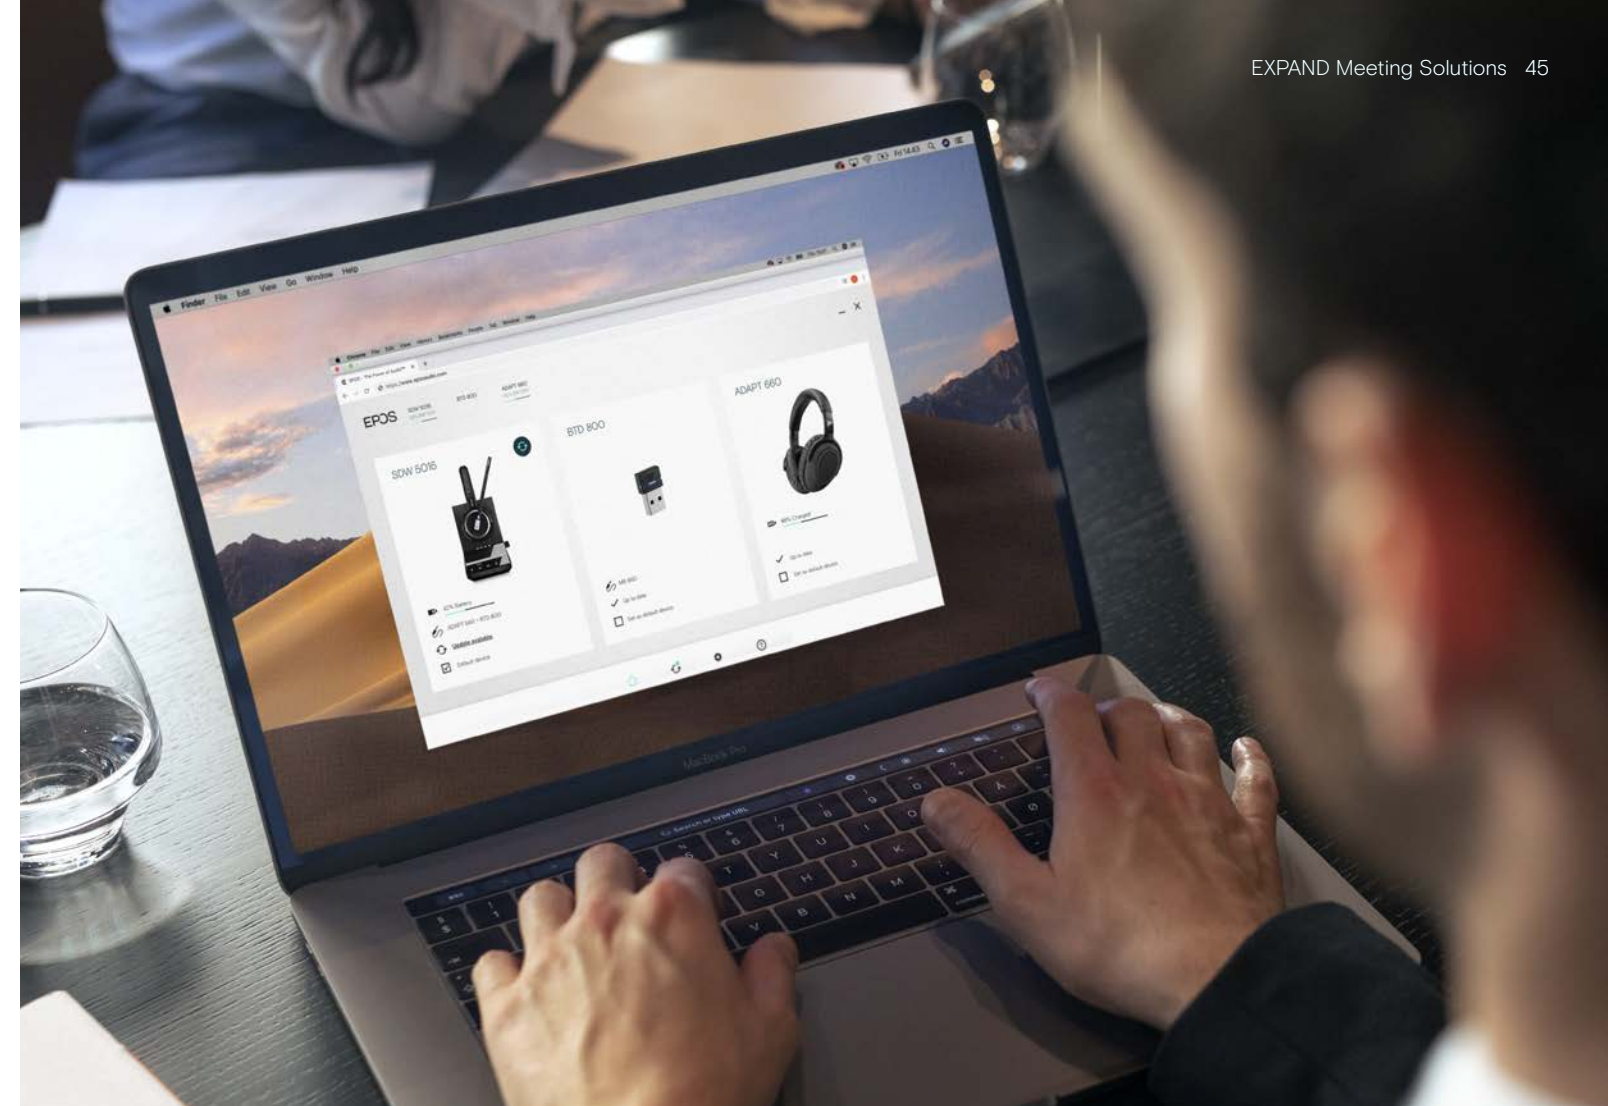

A flexible and cost-effective way to get the latest firmware updates to all your organization's EPOS devices, whenever it's convenient for you and your end-users. Push new updates to an unlimited number of devices across your organization from one simple dashboard. Schedule your automated updates to cause minimum downtime and disruption to your company's workflow.

### Configuration Management

*Easy for you, easy for end-users*

The centralized configuration option allows all settings to be controlled from the IT department, ensuring that headset user's experience a simple plug and play solution. You can centrally push configurations or lock specific specifications on EPOS devices to comply with regulatory compliance settings for specific groups or individuals.

## EPOS Manager for IT Administrators

EPOS Manager has been developed for companies with a need to control their UC environment in a fast and secure way. By installing the client application, EPOS Connect, on your end users' PCs, you gain a complete overview of all deployed devices and access to new updates and settings.

For companies with several locations, it's possible to manage, update and control settings for all end-users in the entire organization. For improved security, all communication and data are encrypted and no sensitive data is stored.

The resulting simplification of the asset, update and configuration management gives great savings in both time and money.

## EPOS Connect for Headset and webcam Users

EPOS Connect is the client application running in the background on the headset or video user's PC. The solution ensures that EPOS work seamlessly with various leading softphones and give you access to the latest firmware updates and personalized settings.

EPOS Connect is uniquely configured to either work together with a signed-up company account on EPOS Manager or as a stand-alone application for smaller companies or personal use.

Designed to be simple to use, the application allows EPOS headset, video and speakerphone users to enhance and personalize their experience and productivity simply and quickly.
